Classroom Uses

In my classroom, I have 6 sets of these word work cards in the word work center; however, it may be a good idea to add a couple sets into the writing center as well.

Students can start using these cards at the beginning of the year to make lists (as seen in the picture to the left). As the year goes on, students can use these cards to help them write sentences or stories.

My students go to the word work center daily. I usually leave out centers from my Word Work packs; however, I also have these cards, white boards, markers, etc. in the center for early finishers.

Just print, laminate, cut, punch a hole in the corner, and add a binder ring!

This is the original set of word work cards that I made. There is a new set with new clip art (some of the same words and some different) that you can find on [TPT HERE](#). I keep both sets in my word work center.
